Prof. Dr. A. Gray Cambridge

Dear Sir,

Your favor of
July 26 has been duly received.
^{am} Sorry of having delayed the
return of the lists, but all was
done with the best intentions,
explained in my last. But since
Prof. Plancher is a very slow corres-
pondent, I shall copy them and
send them on with the next sta-
ment.

Those seeds were those of
Arabis leysneri collected
on the Mission hills near this
place.

Dr. Torrey will correct himself my
statement in regard to himself.
